For Plastic Industries

COMPANY PROFILE

ABOUT US

ALMATIN INTERNATIONAL FOR PLASTIC INDUSTRIES is a specialized manufacturer of high-quality polypropylene packaging solutions. We are committed to delivering durable, reliable, and cost-effective products that meet the requirements of various industrial sectors locally and internationally.

With a strong focus on quality, customer satisfaction, and continuous development, we aim to provide packaging products that ensure safety, efficiency, and excellent performance.

Advanced Manufacturing Technology

At ALMATIN INTERNATIONAL FOR PLASTIC INDUSTRIES, we utilize advanced European manufacturing technology to ensure the highest standards of quality, efficiency, and product consistency.

Our production lines are designed to meet modern international packaging requirements, allowing

us to deliver durable and reliable polypropylene packaging solutions with superior performance.

By combining European technology with strict quality control procedures, we are committed to providing products that satisfy the needs of local and global markets.

OUR PRODUCTS

POLYPROPYLENE BAGS

POLYPROPYLENE JUMBO BAGS

POLYPROPYLENE VALVE BAGS

POLYPROPYLENE WOVEN FABRIC ROLLS

POLYPROPYLENE BAGS

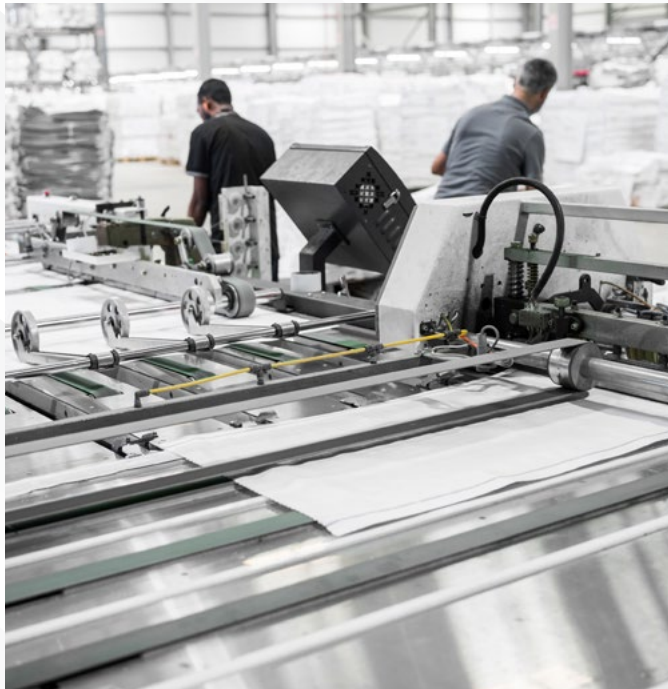

High-quality woven polypropylene bags suitable for:

- Agricultural products
- Animal feed
- Flour and grains
- Chemicals
- Industrial packaging

Features:

- Strong and durable material
- Custom sizes and printing
- Moisture resistance
- High load capacity

POLYPROPYLENE JUMBO BAGS

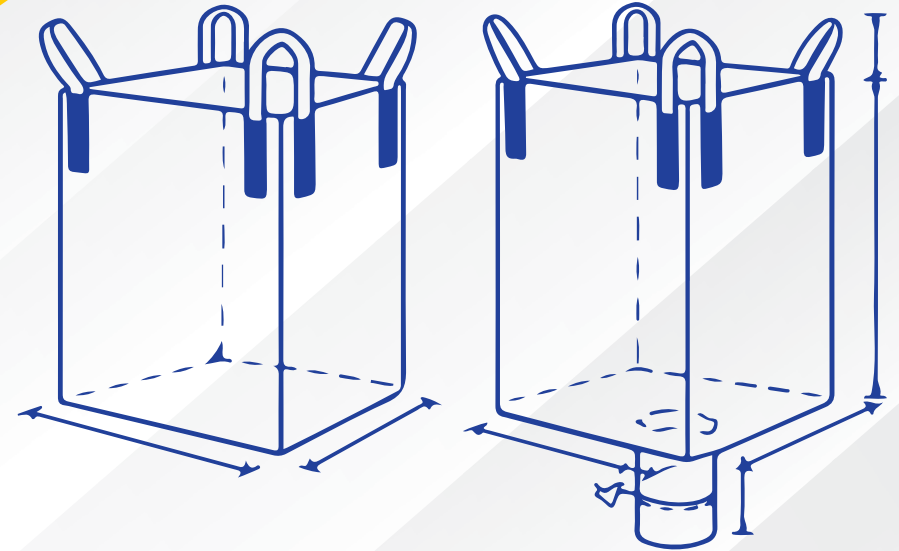

Reliable FIBC jumbo bags designed for bulk storage and transportation.

Applications:

- Chemicals
- Construction materials
- Food products
- Fertilizers
- Industrial raw materials

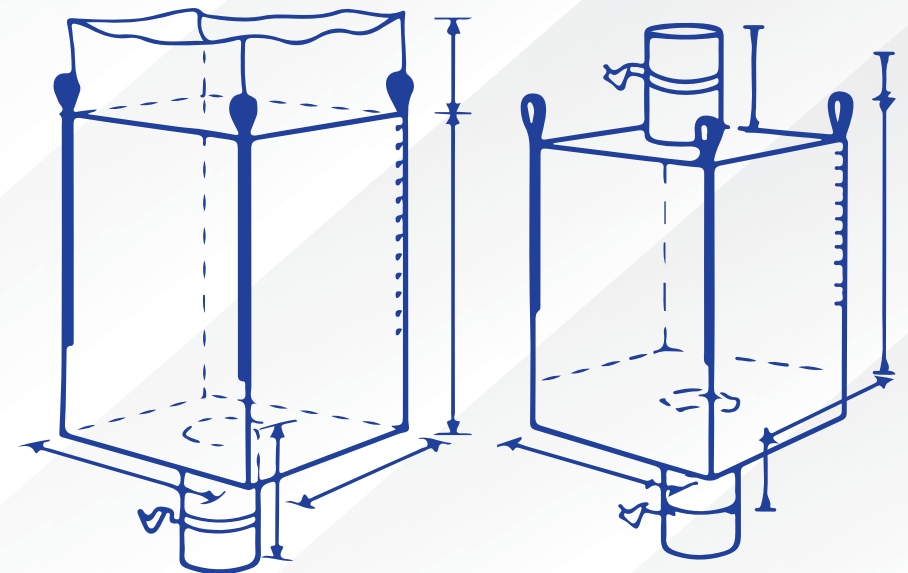

Features:

- Heavy-duty performance
- Safe lifting and handling
- Customizable designs
- Large storage capacity

POLYPROPYLENE WOVEN FABRIC ROLLS

High-quality polypropylene woven fabric rolls manufactured for various industrial and packaging applications.

- Packaging industry
- Jumbo bag production
- Agricultural covering
- Industrial wrapping solutions
- Laminated and non-laminated applications

Features:

- High tensile strength
- Durable and lightweight
- Available in different widths and colors
- Custom specifications available
- Suitable for printing and lamination

WHY CHOOSE US

**High-quality
manufacturing standards**

Competitive prices

Professional customer service

Flexible production capabilities

Timely delivery

Customized solutions
